Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to a disk having a plurality of tracks one of which having a servo field and a calibration field with a calibration field centerline that is offset from the centerline of the track, and a hard disk drive or calibration method for the disk thereof (see the respective disclosure of Figs. 3-8), classified in class 360, subclass 77.08.
 - II. Claims 13, 17, 21 and 32-36, drawn to a disk having a plurality of tracks including a dedicated track included thereon one or more system parameter in alignment with the dedicated track centerline and intended to be read before any other tracks upon powering up the hard disk drive, and a hard disk drive or method for operating or writing system parameters for the disk thereof (see respective disclosure of Figs. 9A-10B), classified in class 360, subclass 77.05.
2. The inventions are distinct, each from the other because of the following reasons:
 - a. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as without the use of dedicated track having system parameters stored thereon and required to be read before any tracks upon powering up the hard disk drive. See MPEP § 806.05(d).

Art Unit: 2653

b. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
